I am one of the many americans that benefits from instant traffic and weather on XM Satellite Radio. XM Satellite Radio is a service that I subscribe to and invested over \$400 in equipment. I do not believe the National Association of Broadcasters should be in a position to determine what I can pay to hear. Please reject NAB's petition 04-160 and let XM Radio determine what programming they provide to their paying subscribers.

Regards,

Jason Mara
